

Food & Water Watch Climate and Energy Forum: Building A Movement for A Safe, Healthy And Just Future

Saturday, October 31, 2015 • 9am – 3pm
Ramapo College, Trustees Pavilion
505 Ramapo Valley Road, Mahwah, NJ 07430

PARTNERS: New Jersey Sierra Club, SJ350.org, CURE, Burlington County Young Democrats, WATERSPIRIT

HOSTS: Ramapo College Masters of Sustainability Program

SPONSORS: William and Deborah Brown

The Food & Water Watch Climate and Energy Forum seeks to bridge the gap between local energy infrastructure fights and the larger movement to end fossil fuel dependence.

During a one-day forum with workshops, speakers, panels, trainings and skill sharing:

- Build skills to engage in all levels of grassroots organizing and critical climate and energy policy making
- Connect with people around the state to share best practices and enhance skills and knowledge
- Dig deeper into the inadequacies of our current policy options to combat climate change, and explore common sense and just policy solutions to our current crisis.
