

YOUR help is needed to give native plants a huge boost!

This would be a huge victory not only for Barnegat Bay but for every body of water in the state of New Jersey because native plants need little watering and do not need fertilizer. These agencies maintain thousands of miles roads in our state. Passage of this bill may also inspire counties and municipalities to require native plantings on roads they maintain.

Native Plant LEGISLATIVE ALERT

S227 / A963

REQUIRES

NJ Dept. of Transportation
NJ Turnpike Authority
Garden State Parkway
S. Jersey Transportation Authority

To **use ONLY Native Plants** for landscaping, land management, reforestation, or habitat restoration.
